Cheryl M. Kenyon

MARSHALL COUNTY CLERK/RECORDER

Honorable Gary Kroeschen,
Marshall County Board Chairperson
Dr. Andrew Dorsey, PharmD
President, Marshall County Board of Health

I am submitting my resignation as an appointed member of the Marshall County Board of Health effective immediately. After serving several terms I have decided to leave to pursue other efforts for community health and well-being in our county community. I am most grateful to the Marshall County Board for the opportunity to have served being a resident, a licensed health professional and health educator.

I support my fellow board members in their efforts to meet the needs of Marshall County citizens by their volunteer service and expertise. I would like to thank the outstanding leadership of Dr. Dorsey on the behalf of public health service needs in our County, especially during these times of our continuing Covid-19 health crisis. I am hopeful for the efforts of Bureau County and their health department staff to try and provide appropriate and responsible services to citizens in Marshall County.

I am willing to be called upon for any special service related to community health and well-being and will be continuing to serve on the Marshall County Mental Health Advisory Board.

Respectfully submitted,

Donna Augustyn-Sloan, MS, OTR/L

Subject: Resignation letter MC Board of Health

To: Gary Kroeschen <62mcbc@gmail.com>

CC: Brad Lindstrom <lindstrombrad@gmail.com>, Pat Sloan <psloan@marshallcountyillinois.com>

Morning,

I initially planned to submit this letter of resignation from the Marshall County Board of Health appointment in October but with Andrew coming down with Covid I held off. I want to submit prior to the next meeting in December. I have tried to bring forth concerns over the past year that I have had with what has transpired in regards to management of the Marshall County Health Department services and the direction it has taken. I would really like to see a strategy by the Marshall County Board to work out better representation for Marshall County public health in decision making and policy that is presently functionally controlled by the Bureau County Board at this time. I am cc'ing this email and attachment to Brad as board liaison.

I told Andrew, and will share with you, that if there is any special service need I could provide please let me know.

Hope you and your family are staying well.

Donna
